

# CRAYLER CR 253-4W

**PALFINGER** CRAYLER

## FOUR WAYS LEAD TO SUCCESS

Flexible and versatile, these are the key attributes of the new CRAYLER transportable forklift CR 253-4W. It is the specialist for handling long goods, which – thanks to its swivelling front wheels – it can move without difficulty in any direction even in the tightest space.

# MANOEUVRABILITY IS THE KEY

## Steering

- best manoeuvrability through 180° steering angle = speedy, comfortable working even in the tightest space
- simple construction = little wear, low maintenance costs

## Load shelf

Optional wide load shelf facilitates the safe handling of long goods.

## All wheel drive

The locking differential makes for optimal travel on almost any terrain.

## Transport on the truck

Fits onto all standard forklift holders.

## Protected cylinders

The steering cylinder piston rods are only extended in 4-way operation. During transportation on the truck and in normal operation they are enclosed in the cylinder housing and therefore optimally protected against external influences.

## Technical data CRAYLER CR 253-4W

Load capacity	2500 kg / 600 mm LSP
Engine	4-cyl. diesel engine, 47.8 kW (65 HP)
Dead weight	2570 kg (without forks)
Lift height	up to 3680 mm

## 4-way mode

Switching over to 4-way mode (moving sideways) takes place hydraulically by means of the control lever.

The forklifts illustrated are in some cases fitted with extra equipment or for specific countries and do not always represent the standard version. Country-specific regulations must be observed in respect of installation.
